

ADDRIIVE - POWER YOUR FLEET

BEST VALUE, BEST PERFORMANCE, BEST IN-SERVICE RATE

Your benefits on purchase

- ✓ Reduced investment volume due to multi-flexible use with maximum usage frequency
- ✓ Competitive fleet management due to reduced personnel and material costs
- ✓ Future-proof investment due to high value maintenance and excellent possible re-usage

BEST VALUE!

Your benefits in operation

- ✓ No overheating of drive unit with high traction in continuous use, for example on a long uphill section
- ✓ Lower mobilisation work for positioning loads during the loading and unloading process
- ✓ Reduction in gross weight for crossing bridges without tractor unit

BEST PERFORMANCE!

Your benefits in service

- ✓ Mechanical shut-down of drive system prevents overheating and wear of drive components
- ✓ Minimal maintenance costs due to using time-tested, high-quality branded components
- ✓ Globally renowned service organisation with excellent spare parts availability

BEST IN-SERVICE RATE!

ADD_{DRIVE} - POWER YOUR FLEET

POWER YOUR FLEET TO MORE EFFICIENCY!

The new »ADD_{DRIVE}« is the perfect combination of the sixth generation of towed modules and long-term experience of self-propelled units. Simply more efficiency for your fleet! This intelligent solution satisfies and combines all the requirements of a towed module and self-propelled unit in terms of traction, speed, flexibility, availability and economy in every respect.

- ✓ Use without powerpack unit in towed mode
- ✓ Can be installed in trailer and semi-trailer combinations
- ✓ Longitudinal and parallel combinations possible
- ✓ Combinations with dropdecks and long-load turntable
- ✓ Can be synchronised with other Goldhofer self-propelled units

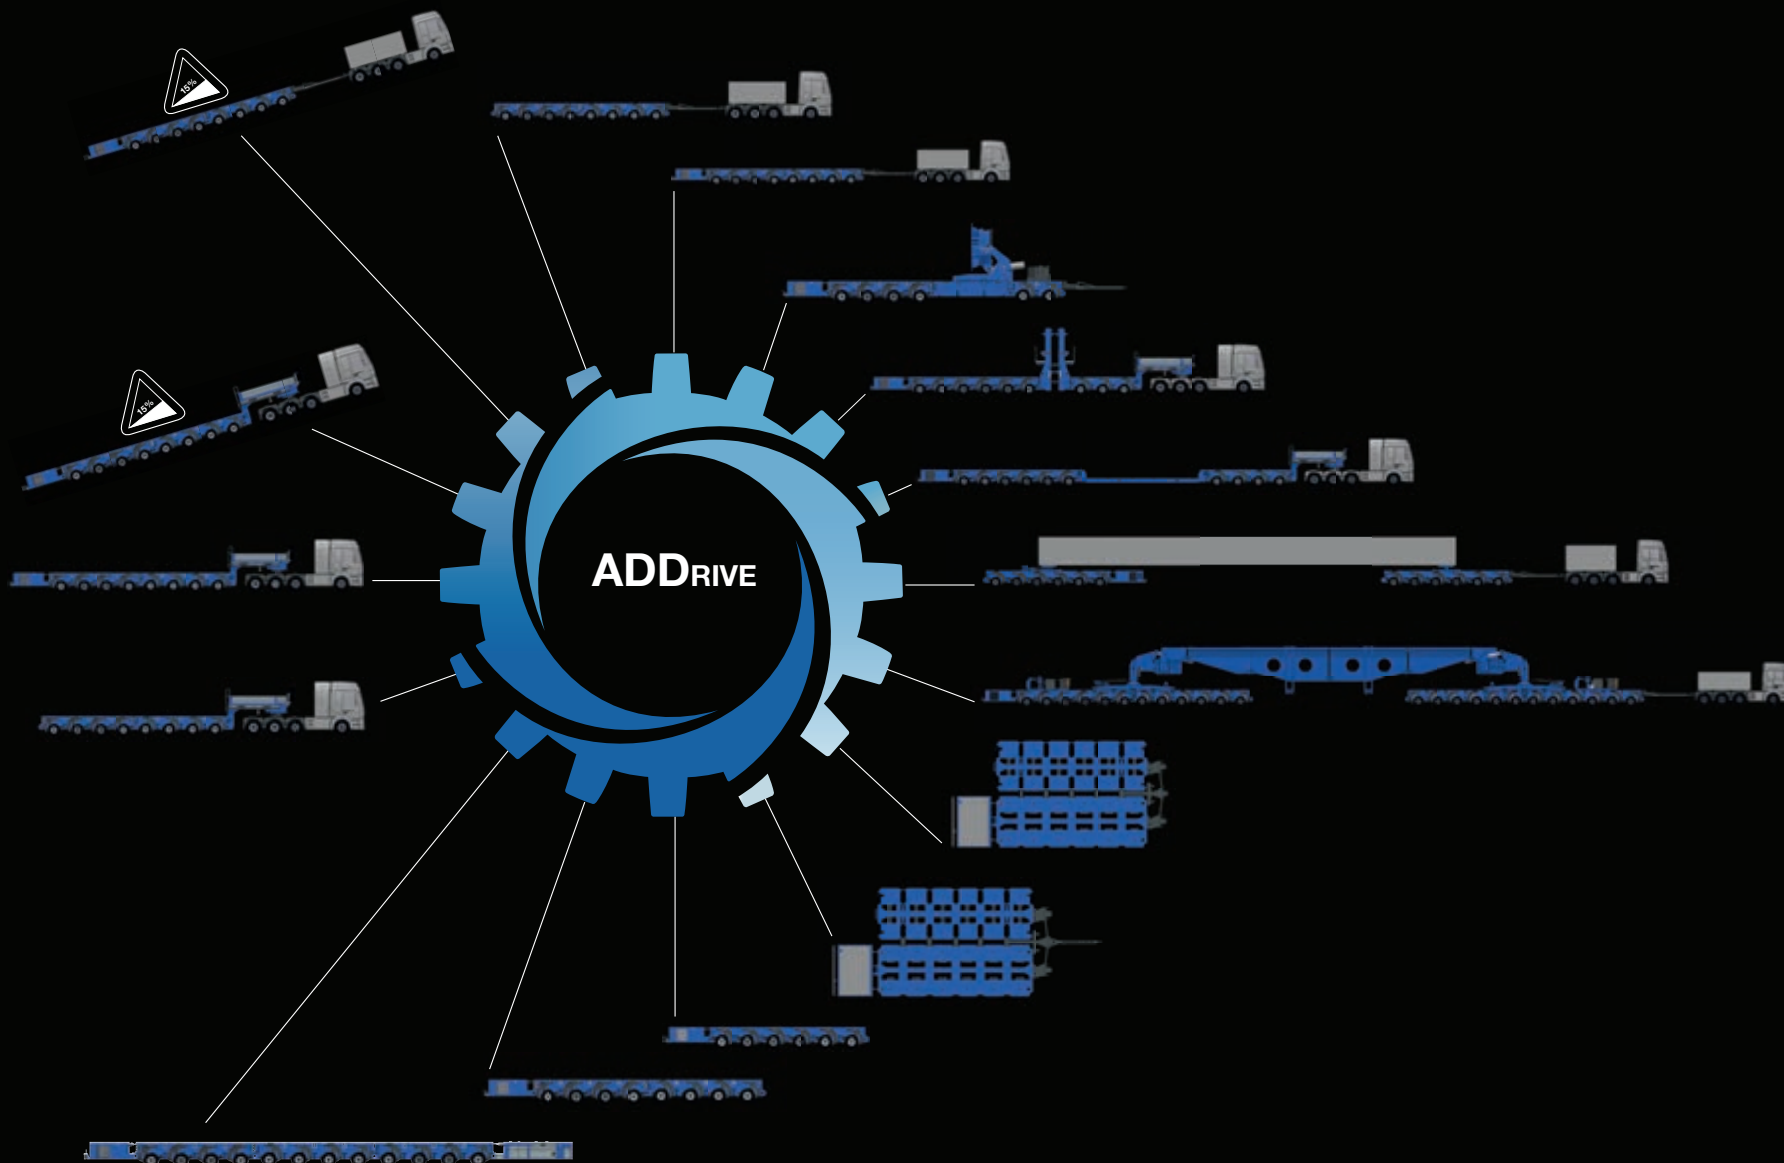

- ✓ Extreme bending moment for concentrated cargoes
- ✓ Time-tested ball bearing slewing ring for perfect load distribution
- ✓ Multi-combination coupling for various module systems with ball bearing race-ring and pivot bearings

- ✓ Remote control with additional connection cable
- ✓ Removable control unit with remote functions for various driving modes
- ✓ Removable lights for road licensing

- ✓ Clean, low-noise engine with EU Stage 4/EPA Tier 4 final for higher speeds
- ✓ No oil flow in towed mode

- ✓ Hydro-mechanical drive system with complete uncoupling in towed mode up to 80 km/h
- ✓ Drive unit with improved traction can be enabled and disabled
- ✓ Automatic shut-down when the drive unit reaches maximum speed
- ✓ The world's first EBS braking system (also works in combination with and without ABS)
